

TEAM Shooting Sports Registration

All registration must be submitted online. Complete this registration worksheet for youth who will be competing as part of a team. A team consists of three to five competitors. Youth may only represent *one* team. Teams registering for the State Tournament must consist of the same members who qualified at the District Tournament. Check the disciplines each competitor will shoot as part of this *team*. If team members are shooting additional events individually, fill out a separate individual registration form.

- You can register Aaron for all of his events on one form. (It is okay if a separate form is filled out for each of Aaron's events, but that is not necessary).
- Even though Corbin and Cameron are shooting the same events, Corbin must be registered on one form, and Cameron registered on a separate form.
